

SCAN ME

Distress monitoring and mobility assessment for health and social care

- ✓ Collects objective data for CQC compliance
- ✓ Fits seamlessly into everyday life
- ✓ Monitors gait quality to prevent falls
- ✓ Alerts carers to falls, mobilisation, and emotional distress

Why socks?

- **Comfortable, familiar, and easy-to-use**
- Removable Sensor on ankle **automatically collects data** during wear.
- Fully **machine washable**. Sensor is safe to go through the wash.
